

Boards & Bylaws: About Committees (6th in a series of 8)

April 06, 2023

Join Carter Ledyard and management consultants [Plan A Advisors](#) on a lively exploration of nonprofit boards and bylaws. This multi-part series will help nonprofit executives and board members consider revisions and amendments to make your bylaws more congruent with the way your nonprofit actually operates, improve governance, and ensure compliance with current law.

This series is designed to offer principles of broad applicability, but laws vary by state, and what is best for your organization will depend on your unique circumstances. We encourage you to consult with an attorney who practices law in the state of your organization's incorporation. This series is not legal advice.
