

Carter Ledyard and KPMG to Host “Strategies for Addressing Underperforming Office Assets in NYC” Panels and Discussion

April 08, 2024

Carter Ledyard & Milburn LLP is proud to co-host “Strategies for Addressing Underperforming Office Assets in NYC”, a discussion on key considerations in navigating the challenges and opportunities associated with an uptick in conversion activity as compared to other strategies, with a focus on the New York City market.

With the October 2023 announcement of new actions under the White House Housing Supply Action Plan to support the conversion of high-vacancy commercial buildings to residential uses, there are opportunities to access new financing mechanisms and surplus supply to support conversions under certain conditions.

The event will take place on Thursday, May 9th beginning at 8:30am at 345 Park Avenue, Heritage Center, New York, NY 10154.
