February 17, 2021

Alex Malyshev, co-chair of Carter Ledyard's Cannabis, Hemp & CBD Industry Group, explains key cannabis rules and regulations in the United States generally, in New Jersey and New York specifically, answering key questions relating to cannabis, hemp and CBD laws.

As cannabis, hemp and CBD continue to be legalized in various parts of the United States and around the world, the cannabis industry is rapidly expanding in size, scope and complexity, at home and abroad. Cannabis laws remain inconsistent and relative, creating legal uncertainty for parties involved or interested in the cannabis sector, which includes investors, lawyers, cannabis industry senior executives, and regulators of the production, sale or distribution of cannabis.
