I work hard to make my clients' lives easier and I thoroughly enjoy helping our clients pursue new business ventures and the challenge of working through complex transactions.

Serving clients in the corporate, securities, and bank financing areas, Mary Brown represents financial institutions and public and private companies in a broad range of domestic and cross-border transactions. These complex matters include mergers and acquisitions, public and private offerings of debt and equity securities and secured and unsecured loan financings.

Mary frequently counsels financial institutions acting as corporate trustees and agents in a variety of capital markets transactions. She also advises companies looking to expand their business in the United States, including by forming subsidiaries and negotiating joint ventures, debt and equity financings.

Globalization continues to affect the way our clients do business and international entities investing in the United States are subject to increasing legal scrutiny. Mary helps our clients navigate the ever-evolving legal and regulatory environment as they do business in the United States and abroad.
