Dedication, effectiveness, and responsiveness is my key to gaining the confidence of my clients. I work hard to offer feasible legal solutions to clients and help them to accomplish their goals.

Micaela is an associate with an international background, having practiced in Italy for several years with a focus on corporate matters. Her experience includes working on domestic and cross-border M&A transactions for US and international clients, primarily in the medical device, pharmaceutical, and information technology industry.

Micaela is also well experienced in general corporate matters, and has drafted a variety of commercial contracts, including distribution agreements, consulting agreements and licenses. Micaela routinely advises corporate clients in structuring and negotiating joint ventures in connection with multi-million dollar real estate development projects, and works on private equity investment deals.

Outside the Office

I love cooking and experimenting with international cuisine to enjoy with my family and friends. I love my dog and I support animal associations. Being in contact with nature has a positive effect on my wellbeing that's why I enjoy the country side, and outdoor activities.
